Description

Qualitek® 35 Defoamer is a non-ionic surfactant that will reduce foam when used for aqueous cleaning applications. 35 Defoamer is recommended when foaming is excessive.

Main Features

- Non-ionic Surfactant
- Effectively reduces foam

Technical Data

Specification

Color and Appearance	Clear Liquid
Flash Point	None
Specific Gravity (g/cm³)	1.02 ± 0.01
Shelf Life	2 years from DOM

Application

For use where foaming is excessive, it is recommended to add 5 – 6 capfuls of 35 Defoamer during aqueous wash process. If required, 1 – 4 additional capfuls may be added to reduce foam periodically (every 4 – 8 hours). This product works optimally at 140 – 150 °F. 35 Defoamer may also be applied by spraying. Simply spray 35 Defoamer onto the boards before they enter the wash operation.

Process Control

While 35 Defoamer is designed not to harm resin beds in closed loop systems, it will most likely be filtered out. Additional amount of 35 Defoamer may be required to achieve desired results.

Storage & Shelf Life

35 Defoamer should be stored in cool, dry environment. Shelf life is 2 years from date of manufacture.

Packaging

35 Defoamer is available in 1 Gallon and 5 Gallon containers and 55 Gallon drums.

Disposal

35 Defoamer should be disposed of in accordance with federal, state and local authority requirements.
