

Multi-Cleaner 1515

Advanced Solvent Based Cleaner

**BEFORE
CLEANING**

**AFTER
CLEANING**

An advanced solvent-based cleaner designed to dissolve and clean residues such as epoxy adhesives, no clean and rosin based fluxes, solder pastes, and other glue-like residues. Unlike alcohol-based cleaners, it is non-flammable and offers superior cleaning strength.

Application:

Apply cleaner directly to the surface such as: Stencil, PCBA, Gold Fingers, etc.. Wipe with dry, lint-free cloth. Also, can add to inline cleaning tanks and is compatible with ultrasonic cleaning systems. Cleaning strength is effective at room temperature up to 140°F. Can be diluted with de-ionized water 20-40%.

Product Features:

- Low-Cost cleaner for rosin, no clean flux and other hard-to-remove residues
- Dissolves uncured epoxy adhesives
- Replaces solvents such as: toluene, acetone, and other highly toxic solvents
- Non-flammable
- Safe to clean up to 140°F in ultrasonic tanks
- Non-foaming

Packaging:

- Precision felt pen (25 per Box)
- 16 oz. Trigger Grip Spray Bottles
- 1,5 and 55 gallon containers
