the physician/health care professional.

### 5. Fire-fighting measures

**Suitable extinguishing media:** Alcohol-resistant foam, carbon dioxide (CO2), or dry chemical.

**Explosion hazards:** Closed containers may explode when exposed to fire conditions.

**Fire fighting equipment:** Self contained breathing apparatus with full face piece operated in positive pressure demand mode, appropriate turn-out gear and chemical resistant personal protective equipment is recommended.

### 6. Accidental release measures

**General procedures:** If the material is in its solid state, pick up and reuse. When molten, allow to solidify, and then reuse if it is not contaminated. If contaminated, refer to Section 13 for proper disposal procedures.

**Release notes:** Avoid repeated or prolonged breathing or skin contact. Wash hands immediately, and remove material from under the fingernails.

## 7. Handling and storage

**General procedures:** Do not store or use near sparks or open flames. Keep containers tightly closed and upright when not in use in order to prevent leakage.
